Ultra Aire Dehumidifiers.....7-12

SANTA FE COMPACT70 MODEL 403360

THE SANTA FE COMPACT70 DEHUMIDIFIER IS A POWERFUL YET SPACE-SAVING UNIT.

With a horizontal configuration and a flow-through design, this system removes excess moisture from low-clearance crawl spaces and tight basement areas to a small home theater.

EFFICIENT WATER REMOVAL

Removes up to 70 pints of water a day.

SMALL FOOTPRINT

(12"W x 12"H x 21"D) fits low crawl spaces, basements, mechanical closets or other small spaces.

CONVENIENT SIZING

Sized to fit between floor joists for convenient hanging installation.

ROTATABLE EXHAUST OUTLET

Provides for horizontal or vertical discharge.

ENERGY EFFICIENT

Every Santa Fe dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

LOW HEAT LOAD

Engineered for low-temperature operation and proper airflow.

DUCTING OPTIONS

Ducting options for divided spaces.

AUTO RESTART

Allows the dehumidifier to automatically restart after a power outage.

WATER REMOVAL

70 PINTS/DAY 8.75 GALLONS/DAY

FOR CRAWL SPACES UP TO

1,800–2,600 SQUARE FEET

FOR BASEMENTS UP TO

1,800–2,200 SQUARE FEET

SANTA FE ADVANCE90 MODEL 4034180

SANTA FE ADVANCE90 ADVANCE SERIES. POWERFULLY EFFICIENT. EFFICIENTLY POWERFUL.

The horizontal configuration and unique dual airflow outlets make it an ideal solution for basements, crawl spaces, and home gyms. It features dual exhaust vents for improved airflow and increased efficiency, keeping your operating costs in check.

DUAL EXHAUST OUTLETS

Efficiently distributes air to multiple locations.

HORIZONTAL SOLUTIONS

Great for both basements and crawl spaces.

QUIET OPERATION

Minimal noise. Maximum dehumidification.

ENERGY EFFICIENT

Every Santa Fe dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

LOW HEAT LOAD

Engineered for low-temperature operation and proper airflow.

DUCTING OPTIONS

Ducting options for divided spaces

AUTO RESTART

Allows the dehumidifier to automatically restart after a power outage.

WATER REMOVAL

90 PINTS/DAY 11.25 GALLONS/DAY

FOR CRAWL SPACES UP TO

2,200–3,000 SQUARE FEET

FOR BASEMENTS UP TO

2,200–2,600 SQUARE FEET

SANTA FE CLASSIC MODEL 4029700

THE CLASSIC IS ONE OF THE MOST ENERGY-EFFICIENT RESIDENTIAL UNITS ON THE MARKET.

Engineered for basements and other finished spaces, it features a vertical configuration and a flow-down design. Its high-capacity blower moves air in a way that no small conventional unit can.

VERTICAL CONFIGURATION

Vertical configuration is great for basement applications.

HIGH-CAPACITY BLOWER

High-capacity blower for optimal air movement.

DUCT KITS AND PUMPS

Optional duct kits and condensate pumps provide multiple installation options for greater flexibility.

ENERGY EFFICIENT

Every Santa Fe dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

LOW HEAT LOAD

Engineered for low-temperature operation and proper airflow.

AUTO RESTART

Allows the dehumidifier to automatically restart after a power outage.

WATER REMOVAL

110 PINTS/DAY 13.75 GALLONS/DAY

ULTRA-AIRE MD33 MODEL 4035900

THE ULTRA AIRE MD33 IS THE FIRST TRUE IN-WALL DEHUMIDIFIER THAT FEATURES A SLIM PROFILE.

The Ultra Aire MD33 is energy efficient and runs independent of the HVAC system, removing up to 33 pints of water a day. Sized for up to 1,200 square feet, the MD33 is the perfect solution to control moisture in multi-family applications and features a digital RH control behind a tamper-proof cover. Designed to drain directly into a hub-drain or plumbing line making it truly a hands-off dehumidification system

The unit can be hardwired into existing electrical or directly plugged into a 110v outlet with the provided cord. Designed to drain directly into a hub-drain or plumbing line, the MD33 is truly a hands-off dehumidification system.

IN-WALL DEHUMIDIFIER

Easily fits inside or through interior studs and runs independently of the HVAC system

DIGITAL CONTROL

Digital dehumidistat control internally mounted behind tamper-proof cover

EFFICIENT WATER REMOVAL

Removes up to 33 pints of water a day.

HARDWIRING CAPABILITY

Designed to drain directly into a hub-drain or plumbing line, the MD33 is truly a hands-off dehumidification system.

ENERGY EFFICIENT

Every Ultra Aire dehumidifier exceeds Department of Energy standards.

ULTRA-AIRE 70H MODEL 4033730

THE ULTRA AIRE 70H IS THE FIRST COMPACT, HIGH-EFFICIENCY, WHOLE HOUSE VENTILATING DEHUMIDIFIER DESIGNED TO FIT IN TIGHT, LOW-CLEARANCE APPLICATIONS.

The unit removes up to 70 pints per day, it exceeds Department of Energy standards and provides effective air filtration (MERV-13). The Ultra Aire 70H is ideal for a small home, condo, or apartment application. The unit can be tied into a forced air duct system, ducted with separate ducting, or used in a freestanding application. It can be installed in mechanical rooms, closets, attics, basements, and crawlspaces.

The Ultra Aire 70H has an innovative cabinet design that easily converts to either vertical or horizontal airflow discharge which allows for easier installation in tight spaces. Flexible airflow configurations allow the Ultra Aire 70H to be installed in locations where other dehumidifiers don't fit due to duct issues and size constraints.

Optional fresh outdoor air may be ducted to the unit via a "T" to the inlet duct. This provides fresh air to dilute pollutants and maintain a normal oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls.

The Ultra Aire 70H includes air filtration to improve indoor air quality.

EFFICIENT WATER REMOVAL

Removes up to 70 pints of water a day.

SMALL FOOTPRINT

(12"W x 12"H x 28"L) designed to fit in tight, low-clearance applications.

ENERGY EFFICIENT

Every Ultra Aire dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

INNOVATIVE CABINET DESIGN

Converts to either vertical or horizontal airflow discharge.

ULTRA-AIRE 98H MODEL 4034240

THE MOST ENERGY EFFICIENT WHOLE-HOUSE VENTILATING DEHUMIDIFIER IN THE 90-100 PINT CATEGORY.

The Ultra Aire 98H is designed to deliver exceptional indoor air quality by providing dedicated moisture control, fresh air mechanical ventilation and superior air filtration (MERV-13) to the entire home. The unit features an extremely well-insulated, compact horizontal cabinet (optional vertical discharge) for the ultimate in quiet operation.

Optional fresh outdoor air may be ducted to the unit. This provides fresh air to dilute pollutants and maintain high oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls.

EFFICIENT WATER REMOVAL

Removes up to 98 pints of water a day.

SMALL FOOTPRINT

(14.5"W x 19.5"H x 323/8"L) Extremely well-insulated, compact horizontal cabinet.

ULTRA-AIRE 120H MODEL 4031957

THE ULTRA AIRE 120H WHOLE HOUSE VENTILATING DEHUMIDIFIER FEATURES A HORIZONTAL CONFIGURATION FOR ANY ATTIC, BASEMENT, OR CRAWL SPACE INSTALLATION.

The Ultra Aire 120H exceeds Department of Energy standards and is designed to deliver exceptional indoor air quality by providing dedicated moisture control, fresh air mechanical ventilation and superior air filtration to the entire home. The unit features an extremely well-insulated, compact horizontal cabinet for the ultimate in quiet operation.

Optional fresh outdoor air may be ducted to the unit via a six-inch round duct. This provides fresh air to dilute indoor pollutants and maintain high oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls.

The Ultra Aire 120H includes air filtration to improve indoor air quality. A MERV 13 media filter is standard.

EFFICIENT WATER REMOVAL

Removes up to 121 pints of water a day.

ULTRA-AIRE 120V MODEL 4036400

A NEW SPIN ON THE ORIGINAL.

The Ultra Aire 120V features high capacity performance, removing up to 120 pints per day. It offers a superior level of air filtration (MERV 13) with dedicated fresh air mechanical ventilation for residential homes up to 3,000 square feet. The integral filter housing holds up to 6" of air filter media, allowing for a variety of filtration options, including MERV 14, without the need for additional equipment. The unique vertical configuration, small-footprint, and innovative dual-exhaust make installation and maintenance much easier in applications where floor space is limited.

Optional fresh outdoor air may be ducted to the unit via a 6" round duct. This provides fresh air to dilute indoor pollutants and maintain high oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls. The Ultra Aire 120V includes air filtration to improve indoor air quality. An optional MERV 14 deep pleated 95% media filter is available for optimum air filtration to reduce potentially harmful airborne particles.

EFFICIENT WATER REMOVAL

Removes up to 124 pints of water a day.

SMALL FOOTPRINT

(20½"W × 40¼"H × 18¼"L) Small footprint vertical design.

ENERGY EFFICIENT

Every Ultra Aire dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

INNOVATIVE DUAL-EXHAUST

Ideal for basements, mechanical rooms and large attics where floor space is limited.

ULTRA-AIRE XT155H MODEL 4031070

THE ULTRA AIRE XT155H PATENTED OFFERS UNMATCHED ENERGY EFFICIENCY.

The Ultra Aire XT155H high-capacity, whole house ventilating dehumidifier features revolutionary dehumidification. XT Dehumidification allows this unit to remove up to 155 pints of water a day, providing fresh air ventilation while using only an unprecedented 8.0 amps (7.3 pints per Kilowatt hour). The UA XT155H is energy efficient and effectively dehumidifies up to 3,500 square feet.

Optional fresh outdoor air may be ducted, providing fresh air which dilutes indoor pollutants and maintains high oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls.

The Ultra Aire XT155H includes air filtration to improve indoor air quality.

EFFICIENT WATER REMOVAL

Removes up to 155 pints of water a day.

REMOTE CONTROLLED

Variety of 24-volt dampers and controls that can be used for many applications.

ENERGY EFFICIENT

Every Ultra Aire dehumidifier exceeds Department of Energy standards.

ULTRA-AIRE SD12 MODEL 4033170

THE FIRST SPLIT WHOLE HOUSE VENTILATING DEHUMIDIFIER WITH NO ADDED SENSIBLE HEAT LOAD—SPECIFICALLY DESIGNED FOR HOT, HUMID CLIMATES.

The revolutionary new Ultra Aire SD12 transforms how residential humidity issues are solved in hot humid climates. By removing over 180 pints of water per day and providing sensible cooling to the living space—all while adding no sensible heat load—the SD12 is the most efficient, cost-effective way to control humidity, enhance comfort, and boost indoor air quality.

The Ultra Aire SD12 is the total solution for your customers in hot, humid climates; it provides all the benefits of supplemental whole house dehumidification with none of the drawbacks: heat load, noise, and vibration.

The Ultra Aire SD12 features the ability to supply truly dehumidified fresh air ventilation for improved indoor air quality and achieving a slight positive pressure to the house. The ventilation function is controlled separately from the dehumidification and filtration, allowing ventilation to be customized for any application.

The Ultra Aire SD12 includes air filtration to improve indoor air quality and superior filtration via a MERV-13 filter.

SPLIT VENTILATING DEHUMIDIFIER

Ventilation function is controlled separately from dehumidification and filtration, allowing customization for any application.

NO ADDED SENSIBLE HEAT LOAD

Provides sensible cooling to the living space—all while adding no sensible heat load.

EFFICIENT WATER REMOVAL

Removes up to 184 pints of water a day.

ENERGY EFFICIENT

6.6 Pints/kWh.

ULTRA-AIRE XT205H MODEL 4031560

THE LARGEST CAPACITY WHOLE HOUSE RESIDENTIAL DEHUMIDIFIER ON THE MARKET.

Ideally suited for large homes with high ceilings, the XT205H effectively conditions inside humid air and provides the proper amount of fresh air ventilation for homes up to 5,000 square feet. As is standard with all Ultra Aire products, the UA XT205H will effectively dehumidify down to 56°F and will provide outstanding performance, providing whole home comfort all year round.

Optional fresh outdoor air may be ducted to the unit, providing fresh air to dilute indoor pollutants and maintain high oxygen content in the air. The amount of fresh air ventilation can be regulated by a variety of dampers and controls.

EFFICIENT WATER REMOVAL

Removes up to 205 pints of water a day.

SMALL FOOTPRINT

(20.25"W × 21.75"H × 41.5"L) Retains the same cabinet size as the XT105H and the XT155H.

ENERGY EFFICIENT

Every Ultra Aire dehumidifier exceeds Department of Energy standards.

MERV-13 FILTER

Provides superior air filtration.

SMART CONTROLS

Controlled by a variety of 24-volt remote wired controls that can be used for many applications.
