DGAPA INFINITY® AIR PURIFIER

OUR BEST DEFENSE

Indoor air circulates through a home's return air ducts, into the heating/cooling system, then back into the home's living areas. It is full of tiny particles from both natural and manmade sources such as pollen, dander, mold, tobacco smoke, exhaust and select viruses and bacteria. The largest of these particles settle on interior surfaces and appear as dust. Smaller particles also settle, but become airborne again with the slightest disturbance. The Infinity® air purifier is installed on or near the furnace/air handler of your home comfort system to remove airborne particles that circulate throughout your home. Removing these particles keeps the equipment components clean, and more importantly, removes particles from the air you breathe. Because your indoor air is under constant attack, you need an effective defense—the kind you get with the Infinity® air purifier. Like putting an Air Purifier in every room.

CHARGE

The purifier creates a “cloud” of electricity charged ions that attach themselves to airborne dust, pollen, viruses, germs and other particles as they pass through.

CAPTURE

The ionized particles are pulled toward an oppositely charged, pleated MERV 15 rated filter and captured at an extremely high rate, similar to how a magnet attracts metal shavings.

KILL

Captured airborne microbes remain on the pleated filter instead of recirculating back into the home and are subjected to an intense electric field. There, 99% of select viruses and bacteria are inactivated.¹

¹The Infinity® air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Infinity® air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the Infinity® filter to be inactivated at 99%.

[Click for more info on the EZXCAB](#)

COMFORT™ EZ FLEX EXPANDABLE AIR FILTER WITH CABINET | EZXCAB

Today's homes are more energy-efficient than ever—sealed tighter and better insulated to keep heated or cooled air on the inside. The unfortunate side effect is that these same homes also do a better job retaining dust, dirt, pollen and more, trapping them inside to circulate and recirculate throughout your living spaces. These particles settle on furnishings, pollute the indoor air and rob your comfort system of efficiency by restricting airflow and making it work a little harder.

PRODUCT HIGHLIGHTS

- Can be used in upflow, downflow and horizontal applications
- Sturdy 20-gauge powder coat painted cabinet that can withstand the weight of a 400 lb (181 kg) furnace
- Rated at MERV 10 with a MERV 13 filter replacement available
- Equipped with a month indicator to remind the homeowner when to change the filter
- High dust holding capacity increases the time between filter changes
- Ten-year limited warranty on cabinet*

**To the original owner, the Infinity® air purifier, ultraviolet germicidal lamp base, humidifiers, carbon monoxide alarm, heat recovery ventilators and energy recovery ventilators are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. To the original owner, the Carrier® fresh air vent and dehumidifier are covered by a five-year limited warranty. The Carrier ultraviolet germicidal lamp bulbs are covered by a 90-day parts limited warranty. See warranty certificate at Carrier.com or included in product literature for complete details and restrictions.*

COMFORT™ MECHANICAL AIR CLEANER | FNCCAB

The Mechanical Air Cleaner provides whole home air filtration and is available models that include either a MERV 8, MERV 10 or MERV 13 air filter. The MERV 13 model effectively clearing the air of more than 90% of airborne particles as small as 1.0 micron in size.

PRODUCT HIGHLIGHTS

- Whole-Home Filtration - Works silently in-line with your HVAC system to help clean the air by removing particles that can circulate throughout your home.
- Filtration Efficiency - MERV8, MERV11 and MERV13 models available. Minimum Efficiency Reporting Value (MERV) ratings range from 1 – 16 and the higher the MERV rating, the fewer particles and other contaminants can pass through the air filter.
- Size - Available in various sizes that can accomodate most homes. Your Carrier expert will recommend the appropriate model to fit your needs.
- Consumer Choice Warranty - Upon timely registration, on eligible equipment select either a 10-year parts only limited warranty or a 5-year parts, plus a 3-year labor limited warranty. [Learn more.](#)

ULTRAVIOLET LIGHT

[Click for more info on Ultraviolet Lights](#)

PERFORMANCE™ ULTRAVIOLET GERMICIDAL UV LIGHT | UVLCC1LP

The indoor coil is part of what cools your home, but it and its drain pan can also be a favorite hangout of mold and bacteria. Growth of these organisms can affect efficiency and reduce airflow. They can even become airborne.

UV lamps from Carrier are designed to kill the mold and bacteria that can grow in the moist environment of your indoor coils to help keep your system efficient and clean air flowing.

[BUY NOW](#)

FEATURES & BENEFITS

- Prohibits bacteria and mold growth on the surface of your indoor coil
- Improves air quality of home
- Silent operation
- Enhances air flow
- Minimizes build-up on coils
- Helps to improve system efficiency
- 5 year limited warranty, 90-day limited warranty for lamps

SPECIFICATIONS

PERFORMANCE

- **Warranty:** 90-day limited on lamp/ballast assembly; 5-year limited on base and power cord
- **Average Power Consumption:** 23 Watts
- **Maximum Amperage Draw:** 0.6 Amps

TECHNOLOGY

- **Average Lamp Life:** 1 year
- **Lamp Length:** 19"
- **Average Power Consumption:** 53 Watts
- **Unit Power Cord Included:** 6' cord

**To the original owner, when product is used in an owner-occupied residence, a 5-year parts limited warranty. See warranty certificate for complete details.*

Viruses & Bacteria

Intense UV light is designed to kill bacteria and mold growing on and around the indoor coil.

Whole-Home Solution

Installed near your indoor evaporator coil to help minimize microbial build-up and help prevent harmful particles from becoming airborne as air flows across those coils.

Warranty

10-year parts limited warranty upon timely registration and a 90-day limited warranty for bulbs.¹

HUMIDIFIERS

[Click for more info on Humidifiers](#)

PERFORMANCE™ STEAM HUMIDIFIER | HUMCRSTM ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

If you have a larger home or want to ensure consistent levels of humidity for the comfort of your family and the care of your furnishings, this steam humidifier may be your best choice. It generates steam by energizing two electrodes. Current flowing between the electrodes causes water to turn to steam, which is delivered into the duct by a patented dispersion tube.

FEATURES

- Patented steam dispersion tube delivery for best moisture delivery
- Steam generation via electrodes
- Tolerant of a wide range of water conditions
- Highest capacity type best for larger homes
- Replaceable steam canister
- Front-facing, easy-access door
- Nearly silent operation
- A better choice for homes with heat pumps
- 10-year parts limited warranty upon timely registration

[BUY NOW](#)

Comfort Features

Ensuring the right amount of moisture inside your home can help make you feel more comfortable. In some cases, increasing humidity levels can allow you to reduce your temperature settings and save on your heating costs.

Water Vapor Output

Maintaining the proper humidity levels depends on the size of your home and the climate you live in. Larger homes and those in arid climates may need a steam or fan-powered humidifier. Otherwise, a bypass humidifier may be sufficient.

HUMIDIFIERS

[Click for more info on Humidifiers](#)

PERFORMANCE™ SERIES SMALL BYPASS HUMIDIFIER | HUMCRSBP

ENJOY THE AIR YOU BREATHE.

Perfect for smaller homes, this 12 gallon per day bypass humidifier adds moisture to dry, indoor air with an assist from your heating and cooling system's blower fan. As a result, you can enjoy relief from common dry-air discomforts such as static electricity, skin dryness, sore throats and dry sinuses.

[BUY NOW](#)

PERFORMANCE™ WATER-SAVER BYPASS HUMIDIFIER | HUMCRWBP

ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

This Performance bypass humidifier uses less electricity than fan-powered humidifiers by letting your furnace blower supply the air movement to drive moisture vapor into your ducts. Its unique, paper-panel design allows 100% water usage by wicking excess water into the water panel for use rather than allowing it to drain away.

[LEARN MORE](#)

PERFORMANCE™ LARGE FAN-POWERED HUMIDIFIER | HUMCRLFP

ENJOY THE AIR YOU BREATHE.

A properly humidified home can help you breathe more comfortably with less dryness, save on energy costs, reduce static electricity and even help protect your wood furniture.

The Performance fan-powered humidifier blows moisture vapor directly into your ducts. This home humidifier type is the preferred solution for heat pump applications.

VENTILATORS

[Click for more info on Ventilators](#)

COMFORT™ ENERGY RECOVERY VENTILATOR | ERVCRNVA

SPACE-SAVING DESIGN LETS YOU BRING IN FRESH AIR WITHOUT OPENING WINDOWS

This model ventilator may be the best choice if you have a larger home and live in a hot, humid summer climate. Use it year round. Its special, enthalpic transfer media core will help infuse indoor heating or cooling energy into the incoming air so you can have a fresh indoor environment even on extreme days. It's a much better fresh air solution than opening a window and letting your energy dollars fly out.

An ERV, or energy recovery ventilator, is the right choice in the Midwest and southern states, where removing humidity from incoming air is vital to efficient, comfortable performance.

SPECIFICATIONS

EFFICIENCY

- Heating Recovery (ASE): Up to 76% at 32°F
- Cooling Recovery (TRE): Up to 55% at 95°F

PERFORMANCE

- Maximum Airflow: 130 cubic ft per minute
- Sound: Quiet operation

CONVENIENCES

- Filter Change: Easy access hinged door for filter cleaning and core cleaning

VENTILATORS

[Click for more info on Ventilators](#)

PERFORMANCE™ HORIZONTAL ENERGY RECOVERY VENTILATOR | ERVXXLHB

Carrier® Energy Recovery Ventilators (ERVs) are designed to minimize energy loss while bringing fresh air into your home and exiting stale air year round.

Energy recovery ventilators use the outgoing air's thermal energy to pre-condition the air coming in so you can enjoy fresh air without overworking your system.

Energy recovery ventilators are best used in climates where the summer is hot and humid.

[LEARN MORE](#)

PERFORMANCE™ HORIZONTAL ENERGY RECOVERY VENTILATOR | ERVXXSHB

Carrier® Energy Recovery Ventilators (ERVs) are designed to minimize energy loss while bringing fresh air into your home and exiting stale air year round.

Energy recovery ventilators use the outgoing air's thermal energy to pre-condition the air coming in so you can enjoy fresh air without overworking your system.

Energy recovery ventilators are best used in climates where the summer is hot and humid.

PERFORMANCE™ VERTICAL ENERGY RECOVERY VENTILATOR | ERVXXSVB

Carrier® Energy Recovery Ventilators (ERVs) are designed to minimize energy loss while bringing fresh air into your home and exiting stale air year round.

Energy recovery ventilators use the outgoing air's thermal energy to pre-condition the air coming in so you can enjoy fresh air without overworking your system.

Energy recovery ventilators are best used in climates where the summer is hot and humid.

[LEARN MORE](#)

VENTILATORS

[Click for more info on Ventilators](#)

PERFORMANCE™ HORIZONTAL HEAT RECOVERY VENTILATOR | HRVXXSHB

KEEP HEATING EFFICIENTLY AND BRING IN FRESH AIR WITHOUT OPENING THE WINDOWS

Carrier® Heat Recovery Ventilators (HRVs) let you enjoy fresh outdoor air in your home and expel stale, sometimes unhealthy air all while minimizing heating energy loss.

They use the outgoing air's heat energy to pre-condition air coming in to keep your heating system working efficiently.

Heat recovery ventilators are best used in climates where winters are cold and excess moisture in the home can be a problem.

An HRV, or heat recovery ventilator, is a great choice for comfort and efficiency in colder climates with longer heating seasons, such as Canada or the northern United States.

SPECIFICATIONS

- Application: Cold winter, non-humid summer
- Air Flow (cubic ft/min): Up to 160
- Sensible Recovery Energy: Up to 65% SRE
- Installation Type: Horizontal

AIR MONITOR

[Click for more info on Air Monitors](#)

AIR MONITOR | RMAM-ST

With advanced sensor technology, the air monitor detects fine particles 2.5 microns or smaller which are linked to possible lung damage, asthma and increased allergy symptoms.

[LEARN MORE](#)

CARBON MONOXIDE (CO) ALARM

[Click for more info on CO Alarms](#)

CARBON MONOXIDE (CO) ALARM | COALM

PROTECT YOUR HOME AGAINST DANGEROUS LEVELS OF CARBON MONOXIDE

Carbon monoxide is a colorless, tasteless, odorless and highly toxic gas. The Carrier® CO alarm uses sophisticated sensor technology to detect and record levels of CO.

You can monitor the current CO level in your home on a large, easy-to-read digital display. When dangerous levels of CO are present, a loud, audible alarm alerts you and your family automatically.

SPECIFICATIONS

PERFORMANCE

- **Warranty:** 7-year limited
- **Response Times:** At 70 ppm, unit must alarm within 60 – 240 minutes; At 150 ppm, unit must alarm within 10 – 50 minutes; At 400 ppm, unit must alarm within 4 – 15 minutes

TECHNOLOGY

- **Power Source:** 120 VAC
- **Audio Alarm:** 85 dB at 10 feet
- **LED Displays:** CO concentration in PPM
- **Temperature Range:** 40°F (4.4°C) to 100°F (37.8°C)

AESTHETICS

- **Size:** 6.0625" x 3.75" x 1.75"

[BUY NOW](#)

A Continuous CO Monitoring

The easy-to-read, continuous digital display allows you to monitor the level of CO in your home with updated information every 15 seconds.

B Built-In Safety Check

The test/reset button checks the unit's electronic circuitry and horn so you can be assured the unit is functioning properly. It also resets the unit during an alarm.

C Convenient Peak Level Tracking

With the simple push of a button, the carbon monoxide alarm will display the highest recorded CO level since the alarm was last reset or unplugged.

D Installation Versatility

The AC plug adapter is removable and corded to provide the ultimate installation flexibility – it can be wall-mounted, placed on a table top, or simply plugged directly into an available outlet. You can pick the best location to maximize the effectiveness of the alarm.

E Uninterrupted Protection

The rechargeable lithium ion battery helps the carbon monoxide alarm provide uninterrupted protection, even during a power outage. (No need to replace batteries once a year.)
